Trading Stamps

Trading stamps never had it so good, at least on the surface.

Some 375 billion stamps will be licked into books during 1963. Yet food men feel that the glamour is beginning to rub off trading stamps.

The success of some food discount stores with their "no frills — no stamps" promotion is beginning to raise eyebrows. Such success points up the fact that consumers are willing to bypass stamps for lower shelf prices. It also indicates that stamps are not indispensable.

Many food store operators would like to drop trading stamps but don't know how. The food industry is keeping an eye on the operator who is trying to find a graceful escape. Although stamps won't last forever, consumers should not look for a letup for some time. Trading stamps have become a built - in factor in food retailing.

Muffin Variations

Tired of serving "plain Jane" muffins? Then try some of these easy-to-do variations.

Use your basic muffin recipe and add bits of crisp bacon, chopped cooked ham, or grated cheese to the batter just before you fill the muffin tin. If you prefer, sprinkle the grated cheese over the muffins three or four minutes before you take them from the oven.

Filled muffins taste fine and are easy to make. Fill the muffin tins half full of the batter, then add a generous teaspoon of your favorite jam or jelly and top with batter. Fill each muffin cup not more than two - thirds full.

One of the easiest variations is topping. Use sugar mixed with grated orange or lemon rind, finely chopped dates or nuts, brown sugar, butter and cinnamon. Or brush the muffins with honey just before you take them from the oven.

A Current Fashion Fabric

As airy and lightweight mohair looped knit is a current popular fashion fabric.

During the knitting process, the loose loops are brought to the right side of fabric to form a nap. This helps give the fabric its air appearance.

Mohair knitted fabrics will shrink. To prevent possible damage, the manufacturer's label states "dryclean only . . . do not steam press or sponge." If nap becomes flat or crushed from wearing, try brushing it upward with your hand. If fabric still needs pressing, press it on the wrong side using a cool iron.

While mohair is a luxury fabric, it doesn't need special handling during sewing. Use matching mercerized thread for stitching. Set the machine for 12 to 15 stitches to the inch. If seam reinforcement is needed, finish seams with zigzag or overcast stitches.

It is advisable to staystitch a lightweight lining to the mohair fabric to prevent stretching. Lightweight lining fabrics won't change the texture of the outer fabric.

There is a difference between looped knit mohair and looped woven mohair fabrics. A looped woven mohair fabric, if handled as a soft woolen fabric, can be steam pressed without danger of shrinkage. The label will tell you which type mohair fabric you're buying.

About $50 million worth of quarters went into coin-operated dry cleaning machines last year. It has been predicted that about four times the number of machines in use today will be operating within the next four years.

Library News

"For the Coming of Spring" — "We give Thee thanks for the loveliness of spring with its promise of summer. Bird and blossom seem to tell us of the possibility of new life for our own souls. This spring day speaks to us of beginning again, of new beauty that can come to refurbish our own barren lives.

O Lord Jesus, may that transformation begin in us now as we sit before Thee — penitent and expectant." Amen

THE PRAYERS OF PETER MARSHALL edited by Catherine Marshall, 1949.

During Lent and as we approach the Easter season, the Appomattox County Library would like to suggest to you the following books for reading as a spiritual lift: Bishop, Jim — "The Day Christ Died"; Douglas, Loyd C. — "The Living Faith"; Graham, Billy — "The Secret of Happiness" and Peace With God"; Foolick, Harry Emerson —"The Meaning of Faith; "The Meaning of Service; and "On Being A Real Person"; Gilbert, James Gordon — "Getting Help From Religion"; Lincoln, Abraham — "The Believer's Daily Treasure" with introduction by Carl Sandburg; Newton, Joseph Fort — "Living Everyday"; a book of faith, philosophy; Marshall, Peter — "The First Easter"; "Mr. Jones Meet the Master" and "The Prayers of Peter Marshall"; Marshall, Catherine — "To Live Again"; Peale, Norman Vincent — "A Guide To Confident Living"; "The Power of Positive Thinking"; Post, Hazzy G. — "Prayer For These Times"; Dale Evans —"To My Son: Faith At Our House"; Sheen, Fulton J. "Life Is Worth Living"; and "Peace of Soul".

These and other books may be checked out for a period of two weeks. The Library is open Monday through Fridays from 9 a.m. until 4 p.m. In case of dire necessity, call either Mrs. Conner or Mrs. Harwood for books at other times.

36 days that proved Ford's total performance!

RIVERSIDE, CAL. January 20	MONTE CARLO January 23	PURE OIL TRIALS January 27	DAYTONA, FLA. February 24
In a total performance test of brakes, suspension and steering on the twisting Riverside sports car course, Dan Gurney drove a Ford hardtop to victory over 43 other stock cars. The 500-mile grind demonstrated Ford's superior stamina and road-holding.	The '63½ Falcon V-8 Sprints made their debut with a fantastic showing in the 2,500-mile Monte Carlo Rallye. Through Europe's worst winter weather they beat 1st and 2nd in class. Besides this ... one Sprint defeated every entrant in the Rallye's six special stages.	In a competition designed to test all-around performance, Fords were overall winners in Class I and Class II in the Pure Oil Performance Trials at Daytona. Their total performance design added up to most total points in gas economy, acceleration and braking events.	Daytona "500" history was made when '63½ Fords blazed into the first five places! Since Daytona is the toughest track in the world, this was eyewitness proof that Ford's total performance design can endure the maximum in automotive punishment.

... and here are the 63½'s that gave total proof of Ford's durability and handling!

You may never see a competitive auto event. But at 30 mph on rain-slick blacktop, in the close-packed rush of 5 o'clock traffic, on a twisting mountain road, the results are important to you. ☐ On every slippery surface you need the kind of roadability that placed five Fords out front in the Daytona "500." On every busy cross street—you want the brakes that won on Riverside's sports car circuit. Your engine will hold up better through years of turnpike use because it's as beautifully balanced as Falcon's Monte Carlo V-8's. ☐ The winning competition car is bound to be a great road car—and Ford is the big winner!

If it's Ford-built, it's built for performance ... total performance!
